

TOASTER BAG

Shreeji Techno Innovations is manufacturing and supplies a wide variety of Reusable Toaster Bag & Non Stick Toaster Bag and it is a high-quality Toaster bag. It is very important for the bag not to touch the heating elements of the toaster. To avoid this, please do not overfill the bag. If the bag comes into contact with the heating elements, it will burn a hole in the bag, although the bag itself will not catch fire.

Shreeji Techno Innovations created a niche position for it in the industry with the manufacturing and supplying of high quality Toaster Bags. With increasing consciousness among people for food qualities, Shreeji Industries decided to launch Toaster Bags as one of the key products of the company and promote them across social media with the support of The Marketing Heaven.

To get sandwich perfectly ready after toasting in the toaster, the use of such bags are mandatory.

One needs to Slide a piece of sandwich right into non-toxic, as well as a non-stick bag and then get it tossed in a toaster. In a few minutes' time, one can have a perfectly toasted and amazingly delicious sandwich. This bag is also perfect for use if in case one needs to use the toaster for making items like Ham sammies, paninis, grilled cheese, pitas, pizza slices, garlic bread, and also to try bacon cooking using a toaster.

DESCRIPTION

These Toaster bags are manufactured by the experts of Shreeji Techno Innovations and are basically sleeves which are made out of PTFE (polytetrafluoroethylene) of superior quality.

It is a synthetic material which is quite similar to that of Teflon. These bags are of reusable nature and can be used several times to toast the sandwich in the toaster. All that needs to be done is to rinse them with water or clean them using a dishwasher.

Material: Shreeji Techno Innovations is making use of international standard PTFE and Fiberglass Fabric for making of toaster bags.

Colour: The product is available in 2 main colours Brown and Black. Customized colour requests can be accepted only in bulk.
