

WOVEN FILTER BAGS

Are you searching for the best place to purchase Fiberglass Woven Filter Bags? If so, you have come up to the right place. We are one of the leading and unique brands in the industry, offering an exclusive range of the fiberglass woven filter bags for the valued customers. Our qualified, experienced, and trained technicians exclusively engineered and manufactured fiberglass filter bags through quality fiberglass materials and modern machines with the strictest industry standards.

Because of its specific usage in several industries for filtration use, these filter bags are highly popular among our precious clients. In addition to, these bags are undergoing a strict quality check by our experienced and certified quality controllers to ensure its premium quality. Some of our glass fiber products are acid resistance finish, SGT triple finish, and ASM from 800GMS.

DESCRIPTION

Our fiberglass woven bags offer excellent support in various complex industrial uses through its unbeatable tensile strength. However, it also protects the product against undesirable environmental constraints. We manufacture these bags under the support of the team of experts and other certified technicians in order to improve product quality. These bags are heat & fire resistance and offer good airflow & better filtration.

- SGT (Triple Finish)
- Acid Resistance Finish
- GSM From 800 GMS

SPECIFICATION

Diameter of 120 mm to 400 mm
Length of 2 mtr to 10 mtr
Heat & fire resistance
Non-hygroscopic in nature
High Tensile Strength
Dimensional Stability
Extremely Favorable Dust Removal
Good Air Flow and Better Filtration
