

## SINGLE PLY FIBERGLASS SILICONE COATED HOSE PIPE

Shreeji Techno Innovations is widely admired by its invaluable clients for manufacturing, supplying & exporting excellent Single Ply Fiberglass Silicone Coated Hose Pipe. Carved with high quality materials, the hose pipe features exclusive designs. The standard hose pipe has been made for high temperature air flow and fume removal. It is equipped to provide maximum air flow and relatively less friction loss.

The hose pipe has been developed to be superior in terms of performance. Through many strict quality tests, we have made sure the silicone coated hose pipe is flawless. It is UV and weather resistant.

The internal hose pipe comes in a range of different designs and models. It is modified as well on the basis of particular specifications. It is ideally suited for several applications such as, computer cooling, ventilation, tiles & ceramic machineries, direct heaters and more.

### SPECIFICATIONS

<b>Size</b>	: 19mm to 305mm and above
<b>Standard Length</b>	: 5 Mtrs (standard)
<b>Color</b>	: Brick Red
<b>Temperature Range</b>	: -75°F to 1200°F & above
<b>Options</b>	: Size as per your requirement

### FEATURES

- UV and weather resistant
- Maximum air flow
- Less friction loss
- Ideal for temperature flow and fume removal

### APPLICATIONS

- Tiles & ceramic machineries
- Hopper dryer
- Plastic machineries
- Lamination
- Multi-layer film
